DEBORAH KASS

Artists Bio

For nearly five decades, feminist artist Deborah Kass has used Pop art techniques to explore the intersections between pop culture, art history, and the construction of self. Preceding the 2016 election, Kass declared her support for Hillary Clinton through a screen print, which utilizes her signature “appropriation” technique to mimic Andy Warhol’s 1972 “Vote McGovern” print. She has also clearly spoken out against Donald Trump, saying that “every day since his inauguration, Trump has worked to destroy the rule of law by declaring himself above it.”

“Feminist artist Deborah Kass has used Pop art techniques to explore the intersections between pop culture, art history, and the construction of self.”
